EMPLOYMENT SERVICES COLLABORATION WITH CARE MANAGERS
Employment Services Collaborative Role with Care Managers

1. Participate in person-centered planning with the person, Care Manager, and care planning team.
2. Identify the vocational or employment service(s) that matches the individual’s needs related to prior vocational experiences, career exposure, work experiences, interests, and demonstrated skills.
3. Work collaboratively with the Care Manager to facilitate enrollment in the programs, services and resources that best meet the individual’s vocational needs. Care Manager will need Central Office approval number for Intensive SEMP and Additional Pathway to Employment service requests.
4. Update and add new services to the Life Plan (Care Manager) and Staff Action Plans (Provider Agency), as required.
5. Ongoing communication regarding progress, challenges and changes in the person’s services, status, schedule, etc.

• To build social and community relationships outside of work

• To build stamina and healthy habits

• To develop transportation skills

• To build independence and safety skills

• To gain experience in new career paths

**Individual Habilitative Goals/Valued Outcomes (My Goal – Section II of Life Plan)**

This section contains the individual’s habilitative goals/valued outcomes derived from the individual’s Life Plan. The habilitation service must relate to the individual’s habilitative goals/valued outcomes. To support person-centered practices, each of the goals/valued outcomes identified must relate to a Council on Quality and Leadership (CQL) Person Outcome Measure (POM) category.

| [Enter content here] |

**Provider Assigned Habilitative Goals (Section II of Life Plan)**

This section contains the habilitation provider assigned (habilitative) goals derived from the individual’s Life Plan which will be assigned as Goals (G), Supports (S), or Tasks (T). Tasks assigned in the Life Plan are not habilitative in nature and therefore do NOT meet the billing requirements to be a habilitation goal. Using the habilitative goals/valued outcomes identified above as the starting point, the details in this section describe the habilitation staff actions that will enable the individual to reach his/her goals/valued outcomes.

| [Enter content here] |

**Individual Safeguards/Individual Plan of Protection (IPOP) (Section III of Life Plan)**

This section contains the habilitation provider assigned (supplemental) goals derived from the individual’s Life Plan which will be assigned as Goals (G), Supports (S), or Tasks (T). Tasks assigned in the Life Plan are not habilitative in nature and therefore do NOT meet the billing requirements to be a habilitation goal. Using the individual safeguards/IPOP from Section III of the Life Plan as the starting point, this section must include detail and any internal guidance documents that outline the individual-specific protective oversight measures staff need to implement or reason for the individual. For individuals receiving Individualized Residential Alternative (IRA) Residential Habilitation, the Residential Habilitation Staff Action Plan must meet the requirements of the Plan for Protective Oversight in accordance with 14 NYCRR Section 686-16.

Provider Assigned Goals in the Life Plan
Action Step Labels

**Goal (G)**
- “Teach”
- e.g., “Teach the person to take public transportation”

**Support (S)**
- “Provide”
- e.g., “Provide diet counseling for healthy food selections”

**Task (T)**
- A one-time activity (does not meet definition of habilitation and is not billable)
- e.g., “Take the person to view different types of apartments”

(T) Tasks as Listed in the Life Plan

(T) Tasks are one-time activities and are NOT billable.

If a (T) Task is listed in the Life Plan but the provider is working with the individual to achieve this action step as a (G) Goal or (S) Support, then the Life Plan should accurately reflect what the provider is actually doing. An example may be “Assessment of skills and preferences” (T) or (S)?

*Contact the Care Manager in a timely manner if you need amendments to the Life Plan.*
Staff Action Plan Strategies for Service Delivery

- **Skill Acquisition/Retention** - Staff assess skill levels, identify methods to teach skills, and identify how to measure progress. In some instances, retention of skills may be the goal.

- **Staff Supports** – Staff provide supervision, on-going support, or oversight when a person is not expected to perform independently due to disability or health/safety factors.

- **Exploration of New Experiences** – The person learns about community and forming relationships often by trying new experiences to determine life directions and to support greater independence.

---

**Staff Action Verbs to Describe Medicaid-Funded Services**

- **Exploration of New Experiences**: explore, assess, evaluate, test, identify, etc.
- **Skill Acquisition** and **Retention**: teach, instruct, reinforce, increase, enhance, role play, prompt, fade supports, etc.
- **Staff Supports**: remind, monitor, provide, prompt, assist, network, communicate, develop, etc.

Use language to justify Medicaid-funded services. Avoid passive verbs or judgmental language.
